BOARD OF GOVERNORS BUILDING COMMITTEE

By FOLIO Staff

The Board Building Committee met June 14, 1974. The meetings will continue to be open at the discretion of the committee, in accordance with a new policy adopted at the June 7 meeting of the Board (see FOLIO, June 13, 1974).

REPLACEMENT OF MEMORIAL ORGAN

Members of the Building Committee voted to recommend to the Board of Governors that the Memorial Organ in Convocation Hall be replaced. The organ commemorates the staff and students who served in World Wars I and II. First dedicated in 1925, it has fallen into disrepair and an estimated \$50,000 would be needed to put the organ into working order. It is the opinion of the consultants, Casavant Frères Limitée of Quebec, that future repairs of the outdated mechanism would become increasingly frequent and would make the \$50,000 expenditure unwise. Hence, the committee sent forward one of the consultants' alternatives, which is to purchase a new electro-pneumatic organ but retain the present console. The 28-stop, 39-rank instrument would cost approximately \$65,000.

The committee's recommendation stated that the new instrument should be able to fulfill teaching purposes as well as be acceptable as a recital organ. They also requested that the appearance of the memorial console be retained.

If the recommendation is adopted by the Board, the Board may accept the Senate's offer to investigate means of raising the necessary funds. The Alumni Association has expressed interest in organizing a public appeal similar to the one conducted by the association in the early 1920s.

CLOCK TOWER PROPOSED

Approval in principle has been given to a proposed clock tower to be donated by JERRY PASCHEN of Paschen Electric Ltd. of Edmonton, and by other interested parties solicited by Mr. Paschen. Mr. Paschen worked on campus for seven years as an employee of an electrical firm, and his wife is an alumna of the University. In making the proposal, he indicated that an outdoor work of art such as a clock tower could enhance the environment culturally and aesthetically. Preliminary

sketches show a modernistic tower of structural steel about 15 to 25 feet high, depending on the siting.

BASKETBALL HAZARD TO BE CORRECTED

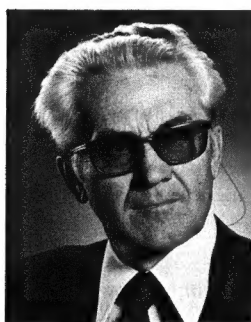

An additional \$12,000 has been budgeted to replace the existing basketball supports in the Main Gymnasium. The original budget was \$8,000. Twice in the past two years the mechanism for raising and lowering one of the nets has failed and the support has collapsed. The situation is considered hazardous and work is to commence immediately, for completion by September 1.

Dr. McFarland

APPOINTMENTS

ELSIE MC FARLAND, since 1973 an Assistant Deputy Minister in the provincial Department of Culture, Youth and Recreation, has been appointed Chairman of the University's Department of Recreation Administration. Her appointment takes effect July 15, 1974. Dr. McFarland holds a BEd from this University, an MSc from the University of Wisconsin and a PhD from the University of Illinois. She has been with the Alberta government since 1951 and was, for many years, head of the health and recreation branch of the Department of Education. When the recreation division was moved to its present department in 1966, Dr. McFarland also transferred as director of the branch.

Prof. Stephanson

B. T. STEPHANSON, Associate Professor of Agricultural Engineering, will become Chairman of that department for a five-year term commencing July 1, 1974. He has been on staff here since 1948 and has, during his tenure, served as acting chairman of the department for a total of nine years. He has taught courses and conducted research in farm machinery and materials, with emphasis on farm safety. Professor Stephanson also has worked with CIDA as head of agricultural engineering divisions at universities in Trinidad and Ghana. He holds a BSc from the University of Saskatchewan and an MSc from the University of Minnesota.

EARLE H. WAUGH (no photo available), Assistant Professor of Religion at Cleveland University, has been named Chairman of Religious Studies. He will take up his new post July 1, 1974. Dr. Waugh has an MA from McMaster University, and an MA and PhD from the University of Chicago. Much of his graduate work was funded by Canada Council grants, including one which enabled him to spend a year in Cairo, Egypt. His research activities have focussed on Islam and Eastern religions; he now is collecting data for a history of Islam in America. At present Dr. Waugh is also the associate editor of the "Ohio Journal of Religious Studies."

BOOKS

Communities in Action, a bilingual social studies program for the upper elementary grades by JOSEPH M. KIRMAN, Associate Professor of Elementary Education, has been published by Science Research Associates Limited.

VISITORS

RICHARD ANDRUS, State University of New York at Binghamton, conducted a seminar in the Department of Botany.

CORRECTIONS

A photo caption on page six of the June 20 issue of FOLIO incorrectly stated that the provincial government had contributed \$1,462.50 to the Children's Cancer Memorial Research Fund. The government grant was, in fact, \$731.25 which matched the amount raised by the children at the Calder school and brought the total donation to the fund to \$1,462.50.

The item on "Academic Pension Plan" in the last Board of Governors meeting report (FOLIO, June 13, page 1) should have read as follows (correction in *italic*):

Members approved for forwarding to the Lieutenant Governor-in-Council, a Trustees' recommendation that the maximum total book value of investments of the Academic Pension Plan Fund in *common shares* be raised from fifty percent to seventy-five percent. In the opinion of the trustees, the new limit will increase their chances of realizing an optimal investment plan for the Fund.
